

GULF RESTORATION NETWORK

United For A Healthy Gulf

Dear ~~BUŠČŮ~~ ~~iaē~~ ~~Á~~ ~~^^\~~,

Thank you for your donation to the Gulf Restoration Network. We gratefully acknowledge your generous contribution of \$200.00.

The Gulf Coast region provides a rich and diverse habitat that is home to thousands of species. We depend on these natural habitats for our water, fisheries, recreation, and the economic health of the region. Our natural resources are vital to our communities and are a fundamental part of our culture. GRN works to protect and restore the Gulf in the face of the BP oil disaster and the other environmental issues that threaten our region with death by a thousand cuts.

Just as the health of the Gulf of Mexico's many ecosystems is tied to the health of the plants, animals, and natural habitats of the region, the effectiveness of Gulf Restoration Network is tied to the generosity of supporters like you. Your support helps provide the resources to effect real change on threats facing the Gulf region.

Once again, thank you for your support.

Sincerely,

Cynthia Sarthou
Executive Director
